

1. Firstly, download and unzip the "CommonBurnerAP" tool

2. Plug in the USB camera module and double-click on "CommonBurnerAP. exe":

名称	修改日期	类型	大小
CommonBurnerAP.dmp	2020/7/9 12:44	DMP 文件	169 KB
CommonBurnerAP	2020/5/5 16:19	应用程序	3,255 KB
CommonBurnerAP.rpt	2020/7/9 12:44	RPT 文件	5 KB
History	2020/5/5 15:22	文本文档	1 KB
SonixCamera.dll	2020/5/5 16:10	应用程序扩展	153 KB

3. Browse and select the firmware file provided by the manufacturer (that is, the file with src as the suffix), and click the burn button:

4. Complete burning:
